

HEAT TREATMENT

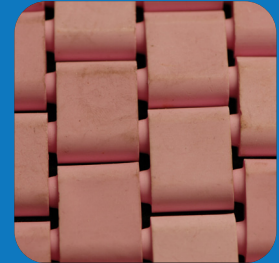

Combine our highly skilled technicians with our advanced portable Heat Treatment equipment and you'll get accurate and affordable on-site Heat Treatment Services.

Resistance Heat Treatment

Patriot International has a wide range of high quality receptacles, connector's and heating pads available. These pads are highly durable and able to withstand high temperatures over long durations. Our resistance heat treatment equipment includes 6-way and 9-way power supplies, monitoring systems and all primary and secondary cables.

Induction Heat Treatment

Our induction heat treatment equipment includes operating systems up to 35kw; controllers with digital recorders, liquid cooled heating cables, power cables, Kevlar blankets and insulation. Our portable induction system is extremely mobile and weighs less than 140 kg. Induction heating benefits a quick set-up and a faster more efficient heat treatment.
